

Mini Project Evaluation-II

Programme: B. Tech.

Semester: VI

Course Name: Implementation of Quantum Algorithm using Simulation (Lab)

Academic Year: 2025-26

Branch: All

Max Marks: 50

Group No	Date	Time
Group 1 to 14	Saturday 9/5/2026	11:00 am onwards
Group 15 to 28	Sunday 10/5/2026	11:00 am onwards

Instructions:

Dear Students, please note following points w.r.t. project demo and technical support.

Demo Structure 1. Introduction (1–2 min) ○ Project title ○ Problem statement ○ Objective 2. Concept Explanation (2–3 min) ○ Theory behind the project ○ Tools/technologies used 3. Implementation (3–5 min) ○ Explain important code sections ○ Show circuits/logic/flow 4. Live Demonstration (3–5 min) ○ Share screen ○ Run the project ○ Show results/graphs 5. Conclusion (1–2 min) ○ Outcomes ○ Applications ○ Future scope	Technical Setup • Ensure stable internet connection • Keep ready: ○ Project files ○ Presentation (PPT/PDF) ○ Code editor (Python, Qiskit, etc.)
